George Francis Train in Jail.

[From the Chicago Times, March 10th.]

Since he was kicked out of the back door of the Lyons Bastile, some three months since, George Francis Train has been miserable. He traveled from city to city and from one country to another, and nowhere did they attach sufficient importance to his billingsgate to martyrize him by throwing him into prison, for it must be known by this time that the self-nominated President of 1872 is never so happy as when behind the iron bars of some lock-up. New York had no use for him; Sing Sing could not be flooded with embryonic Presidents; Boston shook him off, so did Buffalo, Pittsburg and Cleveland, and, indeed, up to a week ago there was every prospect that the much-martyred adventurer would span the United States for once without tasting prison fare. However, his resources proved equal to his necessities, as Jailer Stone is willing now to testify. George Francis remembered that he owed a small indebtedness in Chicago, and he resolved to come here and provoke his creditors into martyrizing him again.

It will be remembered that during the citizens' campaign in the Fall of 1869, the "barnacles" procured Train to do some speaking in their behalf at Farwell hall; at least they accepted of his services after they were proffered. Posters were printed and posted about the streets. Callahan & Broadway did the latter job, and their bill therefor, amounting to $50, has not yet been paid. The responsibility for the same need not be discussed. It is sufficient to state that the bill-posting establishment looked to Train for their pay, but looked in vain. They proceed to put the indebtedness in the form of a judgment. So the matter rested until Train appeared in Chicago on Wednesday last. During his lecture on that evening his judgment creditors, having procured a writ of attachment, levied on the receipts of his lecture before they had been placed in his possession.

It afterward appeared that the lecture was delivered for another, and that he had no interest in the receipts and accordingly the attachment was removed. Luckily for Train and for the creditors, neither one nor the other was disposed to yield an inch. Train stubbornly refused to leave the city while there was a probability of getting into jail, and Messrs. C. & B. were disposed to use all the legal remedies in their hands to enforce a settlement. So on yesterday afternoon the creditors proceeded to take out a *ca. sa.* for Train's arrest. The writ was served by Constable Scanlon about 4 o'clock on the debator, at the Sherman House, where he was stopping. Train seemed all prepared for imprisonment. He ordered his trunk to be taken to the jail, and quietly walked there himself, and relapsed into his usual mode of life with a degree of satisfaction that was apparent.

On last evening the prisoner was visited by several friends, and numberless hordes of reporters, but no "barnacles" sent in their cards. To the friends he related his former prison experience, adding that never in all his confinement did he see so filthy and disagreeable a lock-up, one nearer to his own heart, than that of which Cook county boasts. The reporters, all but the one from the *Times*, he utterly refused to see, gently stating that he would kick them all out if they did not immediately take their departure. They went precipitately.

It is only required to add that the prisoner spent last night in writing a history in twelve volumes of his martyrdom in Chicago, and that it will be published shortly in a city paper. He avers that he has "got a good thing now" for an advertisement, and will remain in the jail until Stone's vermin drag him out through the key-hole before he will ever pay the $50 judgment.

EXIT SAULSBURY.—"Goth," writing to the Chicago *Tribune* from Washington, gives the following account of the exit of Delaware Saulsbury:

Saulsbury is gone—the poor old humorous, driveling drunkard, without McDougall's apology of old age and the long perseverance of bad habits, but in the midst of middle-life, insensible to shame and quite incapable any longer of knowing decency from indecency. His last official hours were what might have been expected. Senator Sherman had made a speech on some subject associated with party matters; the hour of 10 had come and passed, and Saulsbury's historic day was done; but he did not know it. He did not know whether this stage of existence were done. He knew nothing but the muttering garrulity of a man whose angle of vision is duplex, and who can see a different perspective out of each eye, and who, therefore, talks both ways at once. He rose to reply to Sherman, with his red face and rowdy air, in the old unincisive, misty, hap-hazard way. A Senator said:

"I object to Mr. Saulsbury debating. He has ceased to be a Senator in this Congress."

Saulsbury rose up and took his hat. "I'll be—— to ——" he said, "if I hadn't forgot all about it. I was going to give Sherman——"

And so he passed out like a Democrat, a generous nature overthrown by Democratic associations and prejudices, and a type of the spectacle to which the old leaven of his party would reduce the United States. When the nation shall expire, the Democracy, who will be the authors of its ruin, will be too drunk to know it. All forms of government are alike to them, provided the rum be the same, and there be some great member of the human family to revile in their organs. Is it not prophetic of the departure of the Democratic party, this good-bye of Saulsbury, the most honest Senator in it, who had ceased to be when he still supposed himself politically alive? What are they talking about any more than he was? About things which no longer concern them nor us! About old heroes things perished from the world; slavery, sectionalism, demagogery, blasphemy! They have ceased to be the organized ignorance of the country, for ignorance is too progressive for the Democratic party, which occupies to it the relation of a milestone to a terrapin. On the milestones is written:

"Abandon Hope all ye who loiter here!"

And that is all the Democratic party promises to the United States of America. We might run with the terrapin if the hare is too fast for us, but we can have no race with the milestone.

If ex-Secretary of State, Samuel E. May, is guilty, as charged by Democratic journals, of drawing warrants without the least shadow of authority therefor, what must be thought of his Democratic successor, Secretary Chadwick, who, with the history of his predecessor's acts constantly being held up before him, has been guilty of the same acts—has drawn warrants which he knew, in the light of Judge Boise's decision, granting it to be correct, were without the least shadow of lawful authority? Tell the whole truth, gentlemen. If guilt there be, both deserve condemnation. And let the most severe censure fall upon Secretary Chadwick, because in the light of all these charges that have been iterated and reiterated in his own party journals, and in the light of Judge Boise's decision, he has committed the very same unwarrantable and unjustifiable acts.—*Albany Register.*

An eminent Scottish divine met two of his own parishioners at the house of a lawyer whom he considered too sharp a practitioner. The lawyer ungraciously put the question, "Doctor, these are members of your flock; may I ask do you look upon them as white sheep or as black sheep?" "I don't know," answered the divine, dryly, "whether they are black or white sheep; but I know, if they are long here, they are pretty sure to be fleeced."

[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO MARCH 27.

EUROPE.

The Insurgents Quarreling.

PARIS, March 24.—A violent scene occurred at a meeting of the Central Committee. A member of the Committee differed from Gen. Luillier, commander of the National Guards. Luillier threw a chair at the head of his colleague, for which he was dragged out of the meeting and immediately deposed of the commandership. Signs of dissatisfaction have been shown among the adherents of the Central Committee. Five hundred National Guards have been disarmed.

Manifestoes through the Press.

PARIS, March 26.—The *Journal des Débats* advises electors to abstain from voting.

The official organ of the insurgents prints a manifesto signed by Rouvier and Stourens, strongly maintaining the right of a municipal autonomy as a defense against arbitrary political encroachments, and demanding that the army be composed only of National Guards.

The Central Committee have released Chanzy and Longpeau.

Order Prevailing at Lyons.

LONDON, March 26.—Order prevails at Lyons. The Prefecture of the Department has been increased.

Dispatch from Berlin.

BERLIN, March 26.—Representatives of Spain, Italy and Hungary have presented to Emperor William the congratulations of their respective sovereigns on the restoration of the German Empire.

United Restored in Paris.

PARIS, 1 P. M.—March 26.—All is quiet and the city is resuming its normal appearance. The barricades still remain in the streets, but the cannon mounted upon them are withdrawn or turned inwards.

Voting commenced this afternoon and is now quietly going on. There are but few voters.

"Interviewing" at Paris.

PARIS, March 26.—The *World's* special sends the following:

Yesterday I interviewed the whole Central Committee in the Hotel de Ville. Members of the Committee organized in the first place on account of information that Thiers was co-operating with Bismarck for the overthrow of the Republic, evidence of which was overwhelming. Thiers had tried to provoke the Committee to acts of violence, but they waited and he himself committed the first outrages by attacking Montmartre. The object of the Committee was to secure municipal rights for Paris; free elections and the abolition of the payment of rent due during the siege; to form one Republic under the *regime* of a commune, which is to be more comprehensive than even as advocated by Blanc and Hugo, and to be based upon compulsory education. The Committee says: we ignore the Versailles Government, and declare all its acts null and void.

Fresh elections will be held and a new Assembly chosen, having its seat in Paris.

Members of the Commission will not accept office in the new Government, but will form a "cordon sanitaire," having supervisory power over it. The people of all ranks are daily offering their services to us, and officers and men are deserting from Versailles and placing themselves at our disposal. We do not want any needless effusion of blood. General Chanzy will not be executed, but Generals Ducrot and Trochu will be if caught. We have appointed Garibaldi Commander in Chief. He will arrive here tomorrow. Menotti and Ricciotti Garibaldi are his aids.

At a meeting today the Deputies of the Republic left in the Assembly, resolved to support the Government as long as it remained true to the Republic.

Details of Affairs in Paris.

PARIS, March 26.—The election passed off without disorder, and the city is now perfectly quiet.

In the proclamation just issued the Central Republican Committee resigns its functions and yields to the newly elected municipal government. Chanzy left for Versailles. Saisset disbanded the loyal battalion under his command, and has gone to Versailles.

HAVRE, March 26.—Lavallette and three other agents of the Central Republican Committee of Paris, who came on a mission of agitation, have been arrested.

WASHINGTON CITY.

Congressional.

WASHINGTON, March 26.—The President will send a report on the San Domingo Commission to Congress at an early day. He does not intend to recommend action on it at the present session, but is desirous that the contents should be read by the people in order that they may form from official data a judgment of the question under discussion.

The Joint High Commission will conclude its labors in a few weeks, and assurances come from three distinguished and well informed parties that there will be an equitable settlement of matters in dispute. If this shall be the result the President will send the treaty to the Senate should that body be in session.

EASTERN STATES.

NEW YORK, March 26.—The clipper ships *Ring leader*, Capt. Hambling, and *Fronie*, Capt. Bush, sailed yesterday within five minutes of each other on a race to San Francisco.

CHARLESTON, March 26.—The *Tennessee* with the San Domingo Commission, on board arrived off the bar at daylight this morning. The Commissioners and all the party except the scientific corps, came ashore and started at once for Washington.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, March 27.—The foot race long advertised between Maxwell and Shepherd Bay, on the Cliff House road, was a complete sell. Maxwell, to all intents and purposes, going over the road alone at an easy sheep trot.

Sam Brannan is about constructing a carriage road from Calistoga to the summit of Mount St. Helena.

The New Zealand Hotel, Pacific street, between Battery and Front, and two cheap structures in the rear, were considerably damaged by fire last night. Total loss not over $2,000; covered by insurance.

We travel fast in this country. It is assumed that the disagreement about Senator Sumner has destroyed President Grant's chances for re-election. New England will not think for a moment of any President who is not prepared to take that statesman to his bosom; anti-slavery men everywhere will prefer to be ruled by an ex-rebel in preference to any Unionist who does not believe that the sun rises and sets behind the chair of the accomplished Senator from Massachusetts. In the sudden political orphanage to which we have been reduced by this untoward event we observe that a very commendable energy is being exhibited in the efforts that are being made to find somebody who will be kind enough to take the helm in 1872 and guide the Ship of State into some safe haven. Is there any one at all in this broad land who will take pity upon a great historical party and accept the position of President at its hands? We hear the names of Schenck, Cox, Blaine, Sumner, Logan, Colfax and Blaine, already gently whispered. Probably in this recapitulation of available names the whole list of possible candidates has not been exhausted. There must certainly be a few more left. Has not California two or three "favorite sons" who would be willing to come forward in this emergency and save the country by accepting the Presidency? Surely Cincinnatus is not the model upon which all our great men fashion themselves.—*Alta California.*

Congress has appropriated $10,000 for the erection of a first class fog signal at Cape Flattery, W. T. A dangerous entrance where a fog signal is greatly needed.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

The Government in France Growing Weaker.

LONDON, March 27.—The *Telegraph's* special says the government at Versailles has ordered Garibaldi's arrest on his appearance on French soil.

Chermbault, a late prisoner, succeeds to the Ministry of War.

It is generally thought that the Government is defunct; that Thiers will be made to resign, Aumale succeeding him. Thiers says privately that when he has 100,000 men he will attack Paris.

The Insurgents Growing Stronger.

VERSAILLES, March 27.—The insurgents seized a gunboat on the Seine, and captured the crew and documents.

The official journal of the insurgents says that eighteen battalions of the Nationals out of twenty-four, in Lyons, support the communes. The new government is proclaimed without bloodshed.

The Prussian outposts have been advanced to Vincennes.

LONDON, March 27.—The election in Paris passed off quietly, with an overwhelming communist majority. The revolutionary authority is completely dominant. The abdication of Saisset as Mayor increases the success of the revolution, which, within a week, will spread to all the towns and render the position of the Government in the rural districts untenable.

BRUSSELS, March 26.—Bazaine is going to return to France and LeBoeuf to the Hague.

A revolution is prevailing in Algeria.

Measures of the French Government.

These are to be forwarded to Versailles immediately. The volunteers will receive one and a half francs daily. The Minister of War appoints officers.

WASHINGTON CITY.

Delivery of Sumner's Speech.

WASHINGTON, March 27th.—Sumner's speech on San Domingo is long and dignified in tone, personal allusions being generally avoided, yet is a severe arraignment of the President for violations of international law and usurpations of war power. Sumner asserts that it is now in evidence before the Senate that the Navy of the United States, acting under orders from Washington, has been engaged in measures of violence and of belligerent intervention, waging war without authority of Congress. He says the whole business is aggravated when it is considered that the declared object of this violation of [illegible] of half of an island in the Carribean sea are still further that the violence has been resorted to prop and maintain a weak ruler, [illegible] upon, upholding him in power that he might [illegible] his country; and, secondly, that it has been employed to menace the Black [illegible] The evidence, Sumner asserts, [illegible] means have been employed [illegible] secure the aggrandizement of [illegible] which cannot be justified.

Affairs Pertaining to Alabama.

WASHINGTON, March 27.—A [illegible] has been brought to light which, it is understood, will be made the [illegible] Congress on its investigation. It appears that the State of Alabama is entitled to several thousand acres of agricultural land scrip, under [illegible] Congress [illegible] Smith, late Governor of the State, while [illegible] Washington a year ago, [illegible] the purpose of canceling issue of the scrip. The Commissioner of the Land Office directed the scrip to be withheld for some mysterious reason it was never issued. A few weeks ago, Gov. Lindsay, of Alabama, received a communication from a gentleman of Ohio, charging the existence of a conspiracy for withholding this scrip, by which Alabama five per cent bonds were to be depressed on Wall street to sixty cents on the dollar, when they were to be purchased by interested parties for the State law exchanged at par for this scrip. In consequence of an examination in the matter, under the auspices of Gov. Lindsay, of Alabama, a package of the scrip is said to have been discovered in the Land Office, all made out, but endorsed on the envelope as withheld by direction of Senator Warner. The writer of the warning letter from Ohio, charged that ex-Gov. Smith and Senator Warner were interested in this stock jobbing conspiracy. It is said that ex-Commissioner Wilson knows all about the affair and there is no doubt some curious revelations of this and other land jobs will be made.

What Next.

ELECTRIC POLARITY AS A FIRST CLASS DETECTIVE —A GREAT INVENTION.

MARSEILLES (Ill.), February 25.—A curious and wonderful invention has just been perfected by a citizen of this place—one that bids fair to checkmate rascality in all its forms—and that upon scientific principles. The author of the invention has long been of opinion that the minds and thoughts of men are but the varied conditions of electric polarity, and, consequently, to be able to determine and understand that electric condition is to know the thoughts and feelings of the person.

Believing, also, that all mental electric action is necessarily connected with outward surroundings, and that those outward surroundings are influenced by the mental action according to their susceptibility and contiguity with the electric current of currents, producing that polarity called sensation and thought, he has for a long time been experimenting to find those substances most easily and efficiently influenced and moved by electric action. The result of his study and labor in that direction has been the construction of a machine—if machine it may be called—which, though simple in its construction, is truly wonderful in its action.

The inventor claims to be able, with this little instrument—that may be carried in one's side pocket as an ordinary memorandum book—to determine, with unerring certainty, the innocence or guilt of any person, of whatever crimes, whenever committed, and point directly to the article, whether stolen property or otherwise, wrongfully possessed or affected thereby, and also point out any other person or persons connected therewith, to whom the mind of the person in whose electric sphere or current the instrument placed may revert.

In fact, he claims for this instrument that it records the thoughts of men by simply being placed in a room with them, or otherwise conveniently near, and turning their thoughts upon the matter desired, and this so noiseless as not to excite the suspicion of the subject. The few who have been permitted to inspect it and observe its action, pronounce it all that its inventor claims for it, and have gone away strongly impressed that it is a wonderful though scientific attainment. The presence of a voluntary operator is not essential. An involuntarily minded, unconscious of its presence and action, is equally effective. It is dangerous to rascals. A BELIEVER.

Mr. Weed, in a note to the *Commercial Advertiser*, giving additional names of surviving gentlemen who acted on a committee for the public dinner given to Daniel Webster in New York in 1831, remarks that the dinner was given in honor of Mr. Webster's reply to the nullification speech of Col. Hayne, and was presided over by Chancellor Kent. The speech of Mr. Webster on the occasion, is, Mr. Weed says, still remembered for its unsurpassed eloquence. In alluding to Hamilton's financial wisdom and the bankruptcy of the Treasury at the close of the revolution, he made the truly Websterian remark, "He touched the dead corpse of public credit and it sprang forth into life," which evoked spontaneous and long continued cheering from the entire company.

TUESDAY MORNING MARCH 28 1871

The Truth about the Sumner Affair

A Washington correspondent of the New York *Times* furnishes some interesting statements regarding the removal of Sumner from the Committee on Foreign Relations He shows that the story that Sumner was deposed because of his hostility to the San Domingo treaty is utterly without foundation Weeks before the action of the Senate in his case, that subject ceased to be considered in connection with his conduct Much as his conduct and language deserved rebuke last December when he made his bitter and malignant attack on President Grant, his conduct since, says this correspondent, is far more deserving of censure He declares indiscriminately to his visitors that Grant ought to be impeached, and recently at a dinner where were the representatives of foreign governments he met the mention of the President's name for renomination with language so strong that the whole table was startled He is known to have filled his forthcoming speech, which he has been trying for some weeks to find an opportunity to deliver, with expressions toward the President of a most vindictive and insulting character, and these he has read to Senators and others who have called upon him. When this speech is delivered it will vindicate to the country the action of the Republican Senators in deposing him Ho has ceased to have any relations with the Secretary of State, though Mr Fish has ever been kind and charitable in his treatment of him, and has gone beyond the requirements of official etiquette in consulting him It is all these things, says the writer in the *Times*, which makes the feeling against Mr. Sumner stronger now than it was last December, even after that well remembered diatribe against President Grant Nor is it, adds the writer, "any unusual thing, either, to change the Chairman of a committee Were it any other man than Mr. Sumner, it would not be remembered a day. In the Thirty-seventh Congress, during Mr. Lincoln's first term, John P Hale, who was then Chairman of the Naval Committee of the Senate, got into a quarrel with Secretary Welles Though his relations with the President continued friendly, the Republican Senate at once deposed him from the head of the Naval Committee, and put Mr Grimes over him It has been asserted that the President dictated and demanded this change on personal grounds His declarations to those who approached him on the subject utterly disprove the charge When spoken to he stated promptly that so far as the matter was personal to him, he desired no action whatever, that the Committee must do only what they thought the public interest seemed to require, that they were as competent to judge of that as he was, and must act upon their own views as to what course of conduct the situation demand

The report of the San Domingo Commissioners, which may be expected in full very soon, will, it may confidently be predicted, vindicate the President from Mr Sumner's invective and aspersions Already an outline of that report has been received and published And what makes the matter more damnative against Mr Sumner is that all the members of the Commission are his strong personal and political friends. Dr. Howe, of course (one of the Commissioners) has for years been a supporter and an intimate friend of and friend of Mr Sumner. He was selected for the mission by the President with special view of conciliating Sumner and his friends, but the Senator has persisted in unreasonable and headlong course, and made conciliation impossible.

Value of Lands

Only six years ago we wrote in these columns The time will undoubtedly come and will be as valuable on the Pacific coast as it is on the Atlantic side Situated as Oregon is, on the direct line which commerce will take between the eastern portions of our country and the populous regions beyond the Pacific, she will one day have a very large population Production will be stimulated to its utmost capacity, and every spot of land that can be made fruitful will be brought under the hand of the cultivator Good farming lands in the most desirable localities in the State can yet be purchased at low rates, but land in Oregon will not long remain so cheap as now. At no distant day a new movement will be felt here, and under the impulse of capital, enterprise and increasing population, there will be a great awakening.

Oregon now feels the quickening impulse On every hand there are evidences of activity, enterprise and development Land is rapidly rising in value, especially in Wallamet Valley This is one of the most notable facts of present time It is safe to say that the value of farms throughout this valley now only double what it was three years ago And yet the rise has but just commenced There is no reason why good lands within reach of our railroads should not soon come up to as high a price as lands similarly situated in other States With a large immigration increasing production, and the disbursement of great sums of money among us by building railroads and prosecuting other large enterprises, there will certainly be more prosperity in this State than the most sanguine could have dreamed of, five years ago.

In 1815 after the overthrow of Napoleon, the allied powers exacted from France an indemnity of $307,000,000, of which a little more than half was for the expenses of the war occasioned by Napoleon's return from Elba, and the remainder as part payment for the contributions which the French troops had levied during previous wars This sum, Alison, the historian, calls "probably the greatest money payment ever exacted from any one nation since the beginning of the world" As security for payment an army of 150,000, under the command of the Duke of Wellington, was put in possession of sixteen of the principal fortresses of France, for a period of not less than three nor more than five years. France paid off the debt in three years, besides giving $50,000,000 extra to be relieved from the presence of foreign troops on her soil In addition to this large sum the Legislature voted $200,000,000 as an indemnity for the nobles who had lost their estates by the revolution This sum is not more than half as large as the indemnity now exacted by the Germans, but France is vastly more able to pay money now than she was then

A letter from ex Senator Williams confirms the statement that an item was inserted in the appropriation bill on the last day of the last session of Congress for $16,000 for the improvement of the Willamet river above the falls

Kentucky "Democracy"

Such is the violence of Ku-Klux outrages in Kentucky that the mail service between two such prominent cities as Louisville and Frankfort has been discontinued The Ku Klux have sworn that they will not permit the Government to employ a colored mail messenger on that route, and recently assassinated an employe of the Post Office Department on account of his color A recent dispatch from Frankfort to the Cincinnati *Gazette* gives this

This city is in a fearful stew over the failure of Uncle Sam to permit the Ku Klux to say how he shall run his post routes and a prominent member of the House has boldly said if it comes to a question between a negro mail agent and the Ku Klux, he is in favor of the latter The same gentleman not long since said he wished the Ohio river was a river of fire, so that any communication between the North and South would be impossible

The remedy for this state of affairs says the Washington *Chronicle*, as in the hands of the Kentucky Legislature which is too cowardly to suppress the Ku Klux outrages We hope the Postmaster General will deprive the Kentuckians of their mail facilities just so long as they exhibit a determination to shield criminals and dictate to the Government whom it shall employ as its servants

Seriously alarmed by the utter collapse of the French army, England is busy reforming her entire military system. To the intense disgust of the aristocratic element, it is proposed to abolish the system of purchasing commissions, and in future promotion will be made by selection The abolition of the purchase system it is estimated, will cost the nation about forty millions of dollars in the shape of compensation to the holders of commissions The regular army is to consist of 135,000 men its present strength, but is to have a large increase of artillery The militia is to be made more efficient by a better system of drill, and its officers will henceforth be appointed, by the Crown With the regular army, militia, and volunteers, England hopes to have an army of 500 000 men, which ought to be large enough for so small an island.

There has been much complaint in England that the public treasury is taxed to furnish a dowry for the Princess Louise, one of the Queen's daughters, who has just married the Marquis of Lorne Against the payment of the dowry there was considerable popular agitation. Many of the people do not recognize any obligation to provide for the children of the Queen, in view of her very large household establishment This would seem to be a sign that the prestige of royalty is fading out in England

The Health officer gets $200 per month, his clerk draws $175, deputy clerk, $150 messenger, $75, Inspectors $100 each, and four boatmen are paid $75 per month each. The New York *Evening Mail* says "The new Congress is likely to devote a good deal of attention to the business of President making, but the numerous failures of previous Congressional attempts at nursing candidates ought to be warnings to the present body, and the signal failure of Congressional opposition to Mr Lincoln's re election should not be forgotten"

The *World* argues that the Democratic party must not array itself against negro suffrage in the next Presidential election "It is inexpedient to do so for this plain reason that in the next Presidential election the negroes will all vote, and on such an issue every one of them would vote against the Democratic candidate" The argument is short, but will be conclusive.

POLITICAL NOTES.

The Boston *Journal* says Our people might as well be preparing themselves for a sort of tidal wave of enthusiasm in favor of the annexation of St Domingo when the Commissioners return

The Cincinnati *Gazette* is disposed to think Mr Thurman's chances better than Mr Hendricks' for the Democratic nomination for the Presidency in 1872 It believes, however, that Mr Hendricks would be the strongest candidate

The New York *Herald* says Our daily news dispatches from the South, meantime, indicate anything but peace and harmony or security to life and property in the cotton States, and any thing but submission to reconstruction by the still unreconstructed Kentucky.

Harper's Weekly says "The people of the United States would hardly submit to a government which they believed to be the result of a fraud, and consequently the worst kind of usurpation, and the first duty of good citizens, therefore, of every party is to demand laws which shall secure, as far as practicable, that rightful votes only shall be honestly cast and honestly counted"

The New York *Herald* closes a long article on the Grant Sumner controversy, thus Finally, upon this direct issue between President and Senator, the Republican party of the Senate must stick to the President Otherwise the whole organization becomes demoralized, and a scrub race for the succession is inevitable How else can it be if the head of the party is snubbed and Sumner is supported as a multineer General Grant, educated as a soldier, is a disciplinarian even as a politician. So was General Jackson In this very thing, if the Republicans only have the sense to understand it, General Grant has shown them that distinguishing quality of Old Hickory which was and which may be more than a match against all inside mutineers and all outside schemes and coalitions

ELECTRICAL PHENOMENON —The telegraph operator at Santa Fe, New Mexico, writes, on February 23d, to the Santa Fe *Post*, the following

A most singular electrical phenomenon took place on the telegraph line running into this city, yesterday On returning from dinner, I noticed an unusual strength of electricity on the line This continued to increase in a wonderful manner The main battery—that is, the battery which generates the electricity for working the entire wire—was entirely disconnected from the line, the operating key was then thrown open, which is exactly the same as breaking the wire and leaving the two ends about the eighth of an inch apart The line had become so heavily charged with electricity that the current passed between the two points, emitting a most beautiful and brilliant light, at times nearly as large as a candle blaze, but much more intense, accompanied with a hissing sound similar to escaping gas, and a strong sulphurous smell I placed pieces of paper between the two points, but this did not stop the wonderful flow of electricity, which passed through the paper, burning little round holes as the paper was moved This singular phenomenon lasted nearly two hours, when it gradually died away The same circumstance took place in Las Vegas and Fort Union.

The same thing has been known to occur on western wires before, but is very uncommon, and generally, if not always, during a big wind

I should judge the current was equal to a thousand cups of battery We use, to work the wire, about thirty five

Some idea of the enormous railroad travel of Great Britain may be estimated when it is stated that, on the average throughout the year, one railroad train per minute leaves London. This would make 525,600 trains in the course of the year

Cheap Water Pipe.

"THE ASPHALTUM PRESSURE PIPE COMPANY" of San Francisco having purchased of the patentee the sole right to manufacture on this coast are now making an article at their works at Alameda Point, that will supply the general want of a cheap and durable water pipe The invention originated in France where these pipes are extensively used, as well as in Germany In fact all over Europe almost entirely superseding for all ordinary purposes that of iron It is *no new thing* having been in use twenty years.

Its Durability.

Being imperishable and insensible to atmospheric influences or chemical properties of the earth it never changes, and is consequently much more durable than iron, which corrodes, and in time leaks

It is a Non-Conductor,

And will not freeze except at a remarkably low temperature; and even then its expansive power is greater than that of frozen water In warm weather it acts as a cooler for water passing through it

Neutrality to Acids and Alkalis.

This pipe is not affected by acids and alkalis nor is it affected by galvanic currents—consequently is invaluable in conducting telegraph wires under ground through tunnels and under bridges

Elasticity.

The elasticity of this pipe prevents its bursting from outward shocks or concussions The interior of the pipes being glazed are as smooth as porcelain, and consequently are never clogged by adhering sediment

Lightness

The mean weight of these pipes to iron is as one to five which not only facilitates handling, but reduces the cost of transportation

Laying the Pipe

Is a simple matter—can be laid by any laboring man of ordinary intelligence but the Company, if required, will always furnish a competent person free of expense to oversee the proper laying of the pipe Contracts taken for any required length of pipe from water or mining companies and warranted to stand according to contract

Pipe Under Pressure

Can be seen at the office of the Company We are the only parties manufacturing this pipe on the Pacific Coast under this patent All other offered is spurious and an infringement

Cheapness.

The cost when laid including connections is about one quarter that of lead and one half that of iron

We manufacture this pipe in lengths of twelve feet and all transportation where by all sorts of conveyances—in special care being required We manufacture it of any size from one to twelve inches

Pressure.

We manufacture according to the pressure required from 1 to 6?0 pounds to the inch and *guarantee* it to stand the pressure

Prices.

1 inch 10 cents per foot
1 inch 20 "
1 inch 30 "
1 inch 40 "
5 inch 50 "
6 inch, 60 "
8 inch $1 00
10 inch, $1 25
12 inch, $1 50 "

For pipe capable of resisting a pressure of 150 lbs to the square inch

This pipe being made of a combination of paper canvas, and asphaltum in lengths of *twelve feet* should not be confounded with so called asphaltum pipe in lengths of *four* feet

VETERANS OF THE MEXICAN WAR.

MEETING OF SOLDIERS OF THE MEXICAN WAR—ORGANIZATION OF AN OREGON BRANCH—OFFICERS CHOSEN.

Pursuant to notices in the daily papers of this city, a number of the soldiers who participated in the campaigns of the Mexican war, met at the Police court room last evening.

General I. Hamilton, of this city, was elected Chairman, and Victor Trevitt, of the Dalles, was chosen Secretary of the meeting.

On motion, an invitation was extended to all soldiers of the Mexican war who wished to become members of this organization to come forward and give their names and corps to the Secretary.

PLAN OF ORGANIZATION.

On motion, the chairman was authorized to appoint a committee of three to report rules and a plan of organization. The chairman appointed Major James Tilton, Captain Daniel O'Regan and Mr. J. H. Egan.

REPORT OF THE COMMITTEE.

After an absence of a few minutes the committee came in and submitted the following report:

"*Mr. Chairman*—Your committee report as follows. We deem it expedient that the survivors of the Mexican war resident in this vicinity do organize and associate for the perpetuation of the memories connected therewith, and for mutual benefit and good fellowship; that all questions of joining the California organization, etc., be settled at some future meeting.

(Signed) JAMES TILTON,
DANIEL O'REGAN,
J. H. EGAN,
Committee.

PERMANENT ORGANIZATION.

Mr. Trevitt moved that the meeting go into a permanent organization tonight, so far as to elect officers. He thought it should be done, so that there might be some head to the organization, and that it would be the most likely road to a successful perpetuation of the organization.

Without a vote upon Mr. Trevitt's motion, Mr. Egan moved the society be organized under the name of the "Oregon Branch of the Mexican Veteran Association."

Mr. Trevitt moved to amend, and Mr. Egan accepted the amendment—to organize under the name of the "Oregon Branch Associated Veterans of the Mexican War." The motion prevailed.

Mr. Trevitt then suggested that for the purpose of making the organization effective, there should be a President, Vice President, Secretary, Corresponding Secretary and a Treasurer; and this was agreed to by common consent.

Upon motion of Mr. Egan, a committee of three on organization was ordered; and the Chairman appointed the same Committee as before.

ELECTION OF OFFICERS.

The Committee, after a brief absence, reported the following named gentlemen, for officers of the Association, and they were unanimously elected:

President—Gen. E. R. S. Canby;
Vice President—Gen. E. Hamilton;
Secretary—Lloyd Brooke;
Corresponding Secretary—Victor Trevitt;
Treasurer—Jas. H. Lappeus.

CONSTITUTION AND BY-LAWS.

On motion of Mr. Egan, it was ordered that the officers just elected constitute a Committee to prepare and report a Constitution and By-Laws.

THE NEXT MEETING.

It was agreed that the Association should hold its next meeting on Saturday evening, April 1st. The meeting then adjourned.

L. B. Misner and Ella Misner, his wife, to George Pratt, in consideration of $510, north half of lot 4, block 10, city; quit claim deed, January 3, 1871.

CITY TAXES.—There are now only a few days in which city taxes can be paid to the Treasurer, without costs. At the time appointed by law, the Treasurer will return his delinquent list, and the matter of collecting taxes will then be turned over to the Chief of Police, who is authorized to proceed by distraint and sale of property. These officers have no discretion about postponing the performance of their duties; and the best and cheapest way, therefore, for taxpayers is to call at once and pay up.

SPRING OPENING.—Mrs. George H. Clarke, corner First and Washington Streets, having lately arrived from San Francisco, where she has been engaged in selecting a large and complete stock of millinery goods, would announce to her friends and customers, that she is prepared for a grand opening of the same on Monday, March 27, 1871. Employment will be given for two good milliners.

We say it now as we've said it before,
That C. M. MARTIN'S GROCERY STORE
Is where you can make the best pickings
Of all sorts of game, and of chickens,
Of fresh butter and bouncing big eggs,
And fish of all sorts, dried or in kegs;
Of the best kind of bacon and hams,
And of pickles and jellies and jams;
Vegetables and fruits of the season,
And everything good that in reason
You can ask or wish to make a good dish.

SPRING STYLES.—KOHN & FISHEL, as usual, are the first to fill their store with the new Spring Styles of Clothing and Furnishing Goods. Their stock is very large, and their goods of the best quality, and latest styles. Messrs. Kohn & Fishel buy their goods in large quantities, consequently, get them at low rates and can afford to sell cheap, which they intend to do.

They respectfully invite their friends and patrons to give them a call.

Do you desire a handsome Suit of Clothing? If you do, go to Isaac Seaman, corner First and Alder streets, Old Fellows Temple.

J. O'NEIL & Co have just received and opened one of the best assorted lots of Gents' Furnishing Goods and Clothing ever brought into this city, consisting of all kinds of Clothing, Collars, Cuffs, Gloves, Ties, Hosiery, and a large invoice of the STAR Shirt, the best fitting and best made Shirt now worn. This goods are of the latest styles and choicest patterns. Persons wishing spring goods and styles should not fail to give them a call. They cannot but be pleased with both their goods and prices.

WHAT IS DISPEPSIA? THE QUESTION SETTLED.—Two young medical students were disputing the other day at the house of a mutual friend, as to the nature of dyspepsia. One said the primary cause was diseased liver, the other insisted that the disease originated in the epigastrium. "I can tell you what dyspepsia is, for I've been there," observed the host jestingly. "Well, said one of the young medicos, "let's have your opinion." "Dyspsia," said he, "is a complaint that you *can't relieve*, and that PLANTATION BITTERS *cures in six weeks*." The person who made this remark resides at 198 Greenwich avenue, and his name is Martin W. Myers.

SEA MOSS FARINE from pure Irish Moss, for Blanc Mange, Puddings, Custards, Creams, &c., &c. The cheapest, healthiest and most delicious food in the world.

BARBOUR'S LINEN THREAD is nicely put up in boxes, and with special reference to the *Retail Trade*, so that all numbers may be sold at one price.

BARBOUR'S COTTON THREAD is unequalled for strength and evenness of thread. Try it and be convinced of its superior qualities.

"Time tries all things," and has proven that WISTAR'S BALSAM OF WILD CHERRY is *the* remedy *par excellence*, for the cure of coughs, colds, croup, whooping cough, bronchitis, asthma, phthisic, sore throat, influenza, and "last, not least," consumption.

Invigorate the Responsible Organ.

The stomach is the responsible organ of the system. If the digestion is imperfect, every member, every gland, every muscle, every nerve and fiber is more or less out of order. All the fluids are depraved. The brain is clouded. The spirits are depressed. All dyspeptics *know* this to be the truth. It is not, however, half the truth. Columns would be required to enumerate the pains and penalties of dyspepsia. Nor could any pen do them justice. Tens of thousands feel them, no man can describe them.

Can they be prevented? Can they be relieved? Can they be banished at once and forever? Unquestionably they can. No dyspeptic has ever taken Hostetter's Stomach Bitters in vain. Believe no one who says the complaint is incurable. This great vegetable *stomachic* will eradicate it—is eradicating it in thousands of cases over which medical practitioners have shaken their heads ominously, saying, "Nothing can be done."

The faculty has its fallacies. One of them is that indigestion is the most difficult of all the ordinary ailments of mankind to combat and subdue. This is a mistake. Nothing can be easier than to conquer it if the true specific be administered. The vegetable combination which has become famous throughout the civilized world as Hostetter's Stomach Bitters is an antidote to the disease which has never been known to fail, and fortunately it is everywhere procurable. If you wish to fool with the dyspepsia, try the pharmaceutical pretensions. If you want to root it out and prevent its recurrence, take the Bitters daily. There is no discount on the testimony in its favor. If there is a man or woman who has ever tried it for indigestion without being benefitted, the fact has not transpired. Universal, uncontradicted praise vouches its wonderful tonic virtues.

THE LITTLE PEOPLE

A good little boy who only goes to church once in awhile wants to know if the Acts of the Apostles was the one that was laid at the foot of the tree

Small boy (to proud friend with a weed on his lap)—"Well, you needn't be so precious uppish about it neither, as if nobody else a father couldn't die except yours"

"I ain't going to live long, mother" said a woe begone looking youngster, one day to his maternal parent "Why not, pray?" "Because my pantaloons is all tored out behind,' was the conclusion

This milk is rather warm for such a cold morning said a customer the other day to a milk boy "Yes father put hot water in it instead of cold, to keep it from freezing 'was the simple but truthful reply

A little schoolboy presented his teacher with the following note from home as an excuse for tardiness. "Baby cross Biscuit to bad no Baken powder the Dog upset the buggy pot the cat Licked the milk got up late Excuse'

Two little boys were met after dark by a woman who demanded their money Said one of them I have no money This might have been a sufficient answer, but the other was determined to make assurance doubly sure by adding, "and you needn't try my pocket to put money in"

A little girl in Ohio, about three years old, was punished the other day for something she had done, and "Ma, I wished to tell you something" "Why?" replied her mother "Because,' said the little pert, "I want to tell you something that costs something"

A little boy whose mother had promised him a cent was saying his prayers previous to going to bed, but his mind ran more on the horse he began as follows "Our Father who art in heaven—ma, won't you buy me a horse—thy kingdom come—with a gun on it?"

A juvenile party a young gentleman of seven years old kept himself from the company The lady of the house said "Come and play and dance, dear Choose one of these pretty girls for your wife" "Not likely" cried the youth "No wife for me! Do you think I would be worried out of my life, like papa"

A master in Pearson township, Vigo county Indiana, on going to his schoolhouse one recent morning, found himself looked down upon by a large number of his scholars, who had congregated inside He immediately erected a ladder and ascended to the roof of the house, and stopped the passage of smoke from the flue by immediately took away his artificial leg and left him sitting on the comb of the roof until his fingers and ears were completely frozen when he was allowed to descend
